MØBILIZE

An abstract graphic on the left side of the image. It consists of a dense bundle of thin, glowing lines that originate from a point on the left and fan out towards the right. The lines are primarily magenta and pink, with a bright cyan glow at their base where they appear to originate. The overall effect is one of dynamic energy and technological sophistication.

DÉMOCRATISER LE VÉHICULE ÉLECTRIQUE INTELLIGENT EN EUROPE

En 2030, le software représentera 40 % de la valeur
d'une voiture

- > Le logiciel au cœur de la stratégie pour révolutionner l'expérience client
- > Le SDV change la donne : bien plus qu'un smartphone sur roues
- > Un prix abordable grâce à une réduction des coûts

WHAT IS SAFe AGILE FRAMEWORK?

SUBTITLE IN ONE LINE

SAFe® Overview in 5 Minutes

SCALED AGILE®
Provider of SAFe

SAFe is an enterprise-level framework for implementing agile practices across large organizations. It provides a structured approach to scaling agile development, enabling companies to align teams, improve collaboration, and deliver value more efficiently by integrating lean and agile principles across multiple departments and teams.

THANK YOU
